

Welcome to my Gluten Free Cooking School! The remainder of this page will give you some tips on how to best use this course.

A Gluten Free Christmas: Gingerbread House:

There are two other files in the folder that you downloaded. The Gingerbread House Class file contains all of the recipes that you'll need for your Gingerbread House, articles that will guide you along the way, and the link to the video demonstration.

The Gingerbread House Pattern file contains a printable pattern that you will use to cut the cardboard templates for your house.

Where To Start:

Start by reading through the articles – especially the Gingerbread House primer. After that you can either begin gathering your materials, or watch the video which is about 25 minutes long. The password for the video is on the Class Table of Contents page right after the link to the video.

Be sure to give yourself plenty of time to make your Gingerbread House. It's a process to enjoy – not one to rush through. And have fun! Especially if you're baking with little ones. Let them enjoy the time with you, even if everything else doesn't turn out perfectly.

I think that's all that I needed to tell you. Have a Merry Christmas and thank you for letting Gluten Free Cooking School be a small part of it.

Mary Frances
